

Thought for April 15<sup>th</sup> by Sarah

It is good to see tractors back on the land able to turn the earth and sow the seed. There is a wonder at this time in nature with lambing and the flowers brightening field and hedgerow.

Amongst the joy there are many within the farming community who are anxious because of the uncertainty of the future. Isolation does not help as they try to look after their animals or produce food from the land with the lack of people and normal resources.

Easter brings a message of Hope and Joy, knowing that Jesus was willing to die for each of us so that we could have a relationship with God.

As the season progresses remember all those who are struggling at this time and I pray that both the love of Christ, the beauty of nature and the wonder of God's creation will help us to see the blessings we have received and give us hope for the future ahead.

Thank you Valerie, Church Warden at Hankerton for the picture of the lambs.
